Education

Master of Science in Data Science

Kingston University London (Conducted at ESOF Metro Campus) | Feb 2026 - Present

- **Dissertation:** Architecting an End-to-End MLOps Pipeline for Automated Commodity Price Forecasting.
- Developing a continuous training framework using Docker, MLflow, and FastAPI to predict market trends while dynamically adapting to concept drift via Kolmogorov-Smirnov statistical testing.

Bachelor of Information Technology (BIT)

University of Colombo School of Computing (UCSC) | Jan 2022 - Jun 2026

- **Final Year Project:** Hotel Management System (HMS 2.0).
- Architected a full-stack digital solution leveraging Laravel 12 and Supabase for scalable database infrastructure.

Diploma in English Language and Literature

Aquinas College of Higher Studies | Aug 2018 - Aug 2019

Research Interests

- Scalable MLOps Architectures & Virtualization
- Automated Data Engineering & Pipeline CI/CD/CT
- Real-Time Time-Series Forecasting
- Concept Drift Adaptation & Self-Healing AI Systems

Research & Technical Projects

Automated ML Deployment System (MSc Research Project)

- Designed a CI/CD/CT pipeline to automate data ingestion from the Central Bank of Sri Lanka into a unified feature store.
- Engineered a dynamic recursive forecasting engine using XGBoost, benchmarked against ARIMA and Linear Regression baselines.
- Containerized the serving layer via Docker, deploying a real-time Streamlit dashboard and a FastAPI inference engine on Hugging Face Spaces.
- Integrated automated GitHub Actions to execute daily retraining schedules and implemented real-time drift telemetry alerts.

Web Application Architectures (SS Labz)

- Developed and deployed single-page web applications including "Salon Colombia" and "Ceylon Tourism."
- Utilized modern PHP frameworks, Tailwind CSS, and Bootstrap to deliver

high-performance, responsive user interfaces.

Professional Experience

Systems Engineer and Lead Developer

SS Labz | Apr 2026 - Present

- Lead the architecture, development, and deployment of software applications and technical infrastructure .
- Manage systems engineering tasks, including Linux server administration, security implementations, and cloud environments .
- Oversee project lifecycles from conception to production, ensuring scalable and high-performance digital solutions .
- Mentor junior developers and collaborate with stakeholders to align technical deliverables with business objectives .

Senior Service Desk Analyst

MBiz Software | Mar 2023 - Mar 2026

- Promoted internally from Trainee Help Desk Executive to Senior Service Desk Analyst based on consistent performance, technical expertise, and leadership capabilities .
- Managed end-to-end Incident and Service Request lifecycle using ITSM tools, ensuring strict SLA and KPI adherence .
- Acted as the escalation point for priority and high-impact incidents, coordinating with Network, Application, and Security teams for timely resolution .
- Performed initial Root Cause Analysis (RCA) for recurring issues and collaborated with resolver groups to implement permanent fixes .
- Generated weekly SLA and incident trend reports for management review and continuous improvement .

Production Associate

IIML | Sep 2018 - May 2019

- Demonstrated ability to perform copy typing tasks with high accuracy, ensuring data integrity by verifying and validating production data and documentation .

Technical Skills

- **Machine Learning & MLOps:** MLflow, Docker, FastAPI, Hugging Face, Concept Drift Monitoring (KS Testing), CI/CD Automation.
- **Software Engineering:** Python, PHP, Laravel, Bootstrap, Tailwind CSS.
- **Cloud & DevOps:** AWS Cloud Practitioner, CI/CD Fundamentals, Shell Scripting, Linux & Windows Administration .
- **Databases:** MongoDB, MySQL, Supabase .
- **Service Management:** ITIL Best Practices, RCA, Incident & Problem Management .

Certifications

- **AWS Certified Cloud Practitioner** (Validation ID: e82527d0a016405f9718f0ed51f16ce5)
- **DevOps & TechOps (Infrastructure Engineering) Professional Program** - Institute of Digital Engineering Technology
- **Microsoft Azure Fundamentals (AZ-900)**
- **Python Fundamentals** - Great Learning
- **Introduction to MongoDB** - MongoDB University
- **CCNA: Introduction to Networks & Junior Cybersecurity Analyst** - Cisco Networking Academy
